When such pilot has been missing for twenty-four (24) months, the Company will aid the beneficiary in obtaining legal proof in order that death benefits under Company plans (including the Pilot Retirement Benefit Plan) can be paid consistent with

applicable state law. During the period held or missing, such pilot(s) shall be deemed to be in active service for all purposes and accruals, including but not limited to seniority, longevity, sick leave, vacation, pension and all other benefit accruals for a period not to exceed twenty-four (24) months.”

Any death benefits not recovered by this offset will be repaid by the beneficiary to the Company upon its demand. In the event a pilot who has been interned, missing or a prisoner or hostage for twenty-four (24) months and is known to still be alive, then for as long as the pilot continues in such status, he/she shall continue to be deemed in active service for all purposes and accruals, including but not limited to seniority, longevity, sick leave, vacation, pension and all other benefit accruals until death is established, or the pilot would otherwise be eligible for normal retirement.
