B. Personnel File

The company intends to migrate to an electronic personnel file for all pilots. Upon completion of the migration, the Company's current paper personnel file will no longer be maintained as such. The Company intends to provide individual access to any electronic records in a manner similar to that provided for in the current paper files (including through paper printouts/photocopies)

An individual electronic personnel file shall be maintained on each pilot in the employ of the Company. The electronic personnel file shall contain reports and orders. The entire contents of the personnel file shall be available for individual inspection by the pilot during regular business hours, under the supervision of a Company representative and at a mutually agreeable time. It is the Company's intent to have an electronic personnel file system that provides the ability to produce and save an electronic copy of personnel file contents onto portable electronic storage media. As such capability becomes available, a pilot may be provided a soft copy of requested personnel file contents, onto portable electronic storage media provided by the pilot. A pilot shall be advised by way of electronic notification any time a performance related entry is added or deleted.

The company and the Association shall periodically review the level of security in place in order to satisfactorily maintain the integrity of the electronic personnel file system.

In accordance with Section 21.E.3, a Pilot may authorize a union representative to review his/her personnel file without the employee present by submitting original written authorization from the employee to the Company.
